20

Tobias Henschen | Epistemology & Theory of Science
What is a scientific model?

October 24
2019

Frank Stienkemeier | Physics
**The role of models and theories
for understanding nature**

October 31
2019

Monika Fludernik | English Literature
Narratology and modelling

November 14
2019

Michael Staab | Ecology
**How many species are there on Earth? Different models
to approximate global species diversity**

November 28
2019

Milena Bertolotti | Immunobiology
**The desire for simplicity in
the complexity of living systems**

December 12
2019

Carsten Dormann | Environmental Systems Analysis
**Which forecast to trust? Credibility and craftsmanship in
environmental modelling**

January 09
2020

Andreas Hartmann | Hydrology
**Backing a model – how to establish predictions
from limited observations in water sciences**

January 23
2020

Alice Blumenthal-Dramé | English Linguistics
Models and modelling in linguistics

February 06
2020

FRIAS LUNCH LECTURE SERIES
Models and Modelling
across Sciences

In order to receive 2 ECTS, please follow the instructions on
www.frias.uni-freiburg.de/lunch-lectures
